Re: Wildcat Loadout Mid Term Review, C007/033

Dear Sir,

ANDALEX is in the process of completing drawings for the above referenced mid term review. These modifications are being made as a result of a field inspection conducted by the Division on November 8, 2001. All of the field modifications discussed at that time have been implemented including redefinition of ASCA sediment control. The map corrections will be finished shortly and ANDALEX respectfully requests until January 15 to complete these changes.

Thank you.

Sincerely,

Michael W. Glasson
Manager of Operations
